Video: We watched the Trust Land Management video on how schools spend their funds each year. Parents get to pick how to spend the funds in their school. We are making decisions to help provide opportunities for our students.

Data Review: Utah Ste Board of Education website is showing that we have improved in Language Arts, Math, and Science. Hillcrest is still considered a focus school, but that gave us an additional \$22,000. Those funds are being used towards the purchase of new projectors and inter-write boards for all classrooms and the library.

District Goals:

- Graduation Goal – Social Skills
- Literacy Goal – Writing
- Data Meetings – collect & analyze all data

Budget Review: Last year we voted to spend the 2017/2018 funds on two staff assistants, site licenses, three carts and chrome books.
